HAZEL GREEN ACADEMY.

The directors of the above school take pleasure in announcing to the public that highly satisfactory arrangements have been made for the positive opening of the school on Monday January 3d 1887. Three competent teachers have been employed whose qualifications are unsurpassed and their services secured for a term of years. In making this announcement we feel justified in asserting that the school will be an institution which will reflect an honor on this portion of the State and musurpossed eyen by the more pretentious similar institutions of the large cities. Located in a favorable gegraphical section, healthy, moral, free from vi noes alfurements, and with a strict oversight looking to the protection, comfort and mental training of the students, parents can rely upon their children being safe while under the care of the faculty and trustees. The attention of young men and ladies who expect to teach is specially called to the advantages to be gained in this school at a nominal cost. For terms of tuition and further information apply to W.
